Issue 19, Dec. 11, 2009

THOUGHT FOR THE DAY

"The eye is easily frightened." - Ralph Waldo Emerson

PURPLE ROSE

When Cinderella wanted to go to the Ball, her fairy godmother fast-tracked all the formalities and her gown materialized with glass slippers in tow.

Roselyn Asai's fairy godmother was probably on long service leave at this time, so the Year 12 graduate was thrown back on her own resources to prepare for the end of year swashbuckle affair at the Cairns Convention Centre.

Roselyn chose the colour purple to shantung to create a formal modified straight gown in which she added some features and embellishments to suit her tastes. She obviously loves the colour and combined other decorative details to complement the gown. The strapped dress featured a beaded bow at the back, a corsage over the heart and a hand bouquet with the distinctive purple ruffle.

Her silver shoes matched the beads, necklace and bow. Roselyn is the very first student from Djarragun to cut and assemble the components with added embellishments. Roselyn was very proud of her apparel and is now confident enough to come back to complete her course in Clothing Production. Roselyn took around six lessons to create her masterpiece. She is highly motivated now to continue this path as a career choice.

RECYCLING

Over the past few months, the 3R team has been working on a project to introduce Recycling to the school. We're asking for your help to make it successful. Here are some details...

WHO : The 3R reps are finding ways to Reduce, Reuse and Recycle waste products.

WHAT: We are asking you to help us recycle paper and plastic bottles.

WHY: To help our environment and to keep the school clean and tidy. Recycling is also a way to help our school save money by reducing the need to buy new products.

WHERE: There will be blue and yellow bins delivered to each senior and middle school classroom. The yellow bin is for paper (Including newspapers, magazines and cardboard) and the blue bin is for plastic bottles.

WHEN : COMING SOON!!

HOW : We would like teachers to nominate a king or queen each week to ensure bins are used correctly and emptied in to the new recycling area.

The council will empty the large bins fortnightly from the recycling area.

Please note that there is a large blue cage behind the dining room.

This is not part of our project this is only for cardboard boxes.

Interesting Facts about recycling:-

Approximately 88% of the energy is saved by producing plastic from plastic as opposed to plastic from the raw materials of oil and gas

15 billion sheets of paper are used annually for personal computers

We thank the following students for all their hard work :-

Jasmine Raymond; Ralph Daniels; Justice Beard; Mariella Baker; Marsha Matthew; Tikisha Ware; Naomi Webster

Thanks for your support. Kind regards, **The 3R Team.**
